**Utah Prairie Dog Clearance Area Evaluation and Acknowledgement of Survey Requirements**

Under the RANGE-WIDE GENERAL CONSERVATION PLAN FOR THE UTAH PRAIRIE DOG IN RESIDENTIAL AND COMMERCIAL DEVELOPMENT AREAS, dated April 3, 2018, the first step in obtaining development approval on occupied Utah prairie dog (UPD) habitat is to determine current occupancy status of prairie dog activity. This is done by evaluating the most current maps of Utah prairie dog mapped habitat provided by the Utah Division of Wildlife Resources (UDWR).

**Recognition Statement after UPD Clearance Area Map review:**

\_\_\_\_\_ I recognize that according to the UPD clearance map, my project property is located **within** the Utah prairie dog clearance area under the *Range-wide General Conservation Plan for the Utah Prairie dog in Residential and Commercial Areas*, and therefore requires a Utah prairie dog survey where the Utah Division of Wildlife Resources (UDWR) will assist project proponents with completing occupancy surveys for Utah prairie dogs as part of the compliance process for the GCP.

Utah Division of Wildlife resources can be contacted at (435) 865-6100.

\_\_\_\_\_ I understand that according to the UPD clearance map, my project property falls **outside** the Utah prairie dog clearance area under the *Range-wide General Conservation Plan for the Utah Prairie dog in Residential and Commercial Areas* and therefore does not require a Utah prairie dog survey. However, there may be potential for prairie dogs to occupy suitable habitat on the project parcel. If Utah prairie dogs are found on the property contact the Utah Division of Wildlife Resources (UDWR) to avoid any potential risk of illegal take of Utah prairie dogs under the Endangered Species Act. Project proponents of property outside of the clearance area should consider voluntarily completing occupancy surveys for Utah prairie dogs to ensure compliance with the Endangered Species Act (ESA).

If you would prefer to have a survey performed, please contact the Division.

If at any time, a Utah prairie dog is found dead or injured on the property, please immediately report to the U.S. Fish and Wildlife Service at (435) 865-0861. This information should be supplied to all contractors, sub- contractors, and personnel who will be working on the property. If you have any questions or concerns, you may contact the County Building, Planning and Zoning Department at (435) 438-6483, or the Utah Division of Wildlife Resources (UDWR) at (435) 865-6100.
